Livestock Emergency Response Plan (LERP) Toolkit

Livestock Emergency Response Plan (LERP) Toolkit

X. DIRECTION, CONTROL, AND COORDINATION

This section should describe the framework for all FEAD response related direction, control, and coordination. It should identify the authorities responsible for initiating the response and recovery activities relating to a FEAD incident. Information in this section should include a description of the conditions which, when present, triggers the lead agency to take command of an incident. This section should also clearly identify who has operational and tactical control of available response assets.

Livestock Emergency Response Plan (LERP) Toolkit

The screenshot displays the FoodSHIELD web application interface. At the top, there is a dark blue header with the FoodSHIELD logo on the left and system icons (Apps, notifications, search, help, user) on the right. Below the header, a navigation bar contains tabs for 'Personal Library', 'Group Documents', 'General Library' (which is selected), and 'Trash'. The main content area is titled 'General Library' and features two buttons: 'Add Folder' (orange) and 'Upload Document' (green). Below these buttons, there is a 'Home' link and a 'View Mode: Folders :: All Docs' indicator. A search bar is located on the right side of the main content area. The central part of the interface is a table listing folders. The table has columns for 'File', 'Author', 'Version', 'Date (yyyy/mm/dd)', and 'Type'. The folders listed are: AFDOSS Fall Conf. 2009, Bi-Lateral, Briefings, Emergency Response Plans, FERP, FMD RA, FoodSHIELD Training Documentation, ICLN Subgroup Workshop, Livestock Emergency Response Planning (LERP) toolkit, and Meeting Notes/Action Items. The 'Livestock Emergency Response Planning (LERP) toolkit' folder is highlighted with a blue background.
